Model Number	Intended Use	Typical Input	Data Rate	Support For cryptography
IXP2400	Access & edge	OC-12 to OC-48	2.5 Gbps	no
IXP2800	Edge & core	OC-48 to OC-192	10.0 Gbps	no
IXP2850	Edge & core	OC-48 to OC-192	10.0 Gbps	yes

Figure 17.1 Examples of specific Intel network processors that follow Intel's Internet Exchange Architecture.
